Coderatory | Revolution in Innovation   Aug 2023 - Dec 2023

MERN STACK DEVELOPER | INTERNSHIP

- Specialized in Node.js, MongoDB, Redis.
- Transitioned from MERN to backend technologies for scalability.
- Used Next.js for dynamic routing and backend-focused solutions.
- Designed scalable and reliable backend architectures for web applications.

PROJECTS

EDUCATION

Computer Engineering | Sir Syed University Of Enginnering & Technology
Semester : 8th
CGPA : 3.0

Government Delhi College
Percentage : 84%

Metropolis Education System
Percenetage : 83%

Collegemastermind Multi Role Platform (Code is company property)
A gem for students in finding right college or univeristy webapp based on MERN stack.

FreeAPI (https://github.com/hiteshchoudhary/apihub)
Explore open source backend Node project.

Stripe Payment
A starter for stripe integration.

Social Media Backend (https://github.com/SyedAbdullahAhmed/Social-Media-Backend-II)
A complex and highly scalable social media backend webapp implement easy backend solutions .

Cricket Sphere (https://github.com/SyedAbdullahAhmed/Cricket-Sphere)
A complex and highly secure backend app for cricket community.
